To whom this concerns,

I wanted to write you & let you know that we have had another spill over the weekend.

This is the 5th spill we have had this year.

How many spills is it going to take before this company (TCWS, Utilities Inc.) is held accountable for the damage to OUR Lake and to the Citizens of Tega Cay?

We also have had backups in people's homes since the first of the year, last count around 8.

Does someone have to get really sick or worse before something gets done?

We (Tega Cay Citizens) cannot get any relief from this company and it seems everyone's hands are tied?

This company DOES NOT know how to tell the truth and they are constantly getting by with doing this to us.

Please someone give me an answer that makes common sense!

Respectfully,

RECEIVED

Jolene Church
